- TDD
- User authentication
- RESTful APIs
- Mustache
- Thymeleaf

Database

- JPA
- SQL
- PostgreSQL
- MongoDB
- ORMs: Sequelize, Mongoose

Other

- Git
- IntelliJ IDEA

Education

AUGUST 2017

Full-Stack Programmer / The Iron Yard

The Iron Yard is a 12-week coding bootcamp specializing in highly focused, immersive training centered on language fluency, object-oriented programming, and project-based learning. I successfully completed a Back-End Focus path in Java/Spring at TIY's Greenville, SC campus.

MAY 2010

B.A. Print Media / North Greenville University

I graduated summa cum laude with a degree concentrating in both journalism and graphic design.

Experience

2015 – 2017

Lead Account Manager & Software Expert / Rally Prospecting

Superuser of our custom email-automation platform. Client advocate and team cheerleader.

Cultivated both client experience and team engagement. Became the in-house expert on our B2B marketing automation software and oversaw a major software addition project in 2016. Collaborated with senior management, clients, team members, and development contractors to ensure successful launch.

2010 – 2014

Store Manager / Aveda

Client-focused sales. Successful team leadership.

Team cheerleader at two metro-DC boutique beauty retail locations. I was promoted from full-time sales to store manager within two years. During my time as a store manager sales skyrocketed 10%, and our team achieved customer service benchmarks.
